JET WASH AREAS

A smart car wash experience

The latest technology for jet wash areas

ENCLOSURES

A large variety of modular solutions for all types of facilities.

JET WASH AREA

High-pressure self-service equipment suitable for cars, motorbikes and bicycles.

Welcome to the enjoywash world.

Welcome to a new technologically advanced jet wash generation for a more efficient wash.

CHEMICAL PRODUCTS AND WATER TREATMENT

We develop our own biodegradable, highly effective chemical products, sustainable technological solutions that save energy, water and chemicals, as well as water treatment and recycling systems.

PAYMENT TERMINALS

Technologically advanced systems for a personalized, user-friendly experience. Equipped with the latest payment methods.

ISTOBAL presents the latest high-pressure jet wash technology with a focus on maximum business profitability and a extraordinary user experience. A great variety of compact, multi-bay solutions and innovative accessories guarantee the best business choice and a consistently impeccable finish.

COMPACT SOLUTIONS

Maximum performance in reduced areas

When space is limited, ISTOBAL n'joypack is the best solution. Our one-bay jet wash stations feature all the necessary accessories to ensure a top quality wash.

Different models are available to cater for individual client needs. With a wide program choice including standard and special programs, ISTOBAL n'joypack maximizes profitability in each service.

Compact units but great performers with reduced investment. ISTOBAL n'joypack is the ideal solution for maximum performance in reduced areas, guaranteeing a consistently perfect result.

MULTI-BAY SOLUTIONS

However demanding
our customers may be,
we are more so

The new generation of multi-bay jet wash solutions offers maximum performance, program variety, and flexibility to adapt to specific client needs. Relying on cutting-edge technology, our equipment takes care of every detail to meet the needs of the most demanding clients.

ISTOBAL n'joyavant reduces energy use as well as water and chemical product consumption without jeopardising car wash effectiveness and user satisfaction.

Solutions that can be installed quickly and easily.

The versatility of our multi-bay jet wash equipment also applies to the facility site. Equipment pre-installation and interconnection with the rest of systems through different modular solutions in either a cabinet or a container facilitates installation and makes better use of available room..

With different installation possibilities and with all payment methods available, the most advanced terminals complete a cutting-edge jet wash area for a unique experience and an extraordinary finish.
